Announcing...

As of April 11, 2007

AMT and SIKORSKY Aircraft have been approved by the DoD to participate in its **Mentor Protégé Program**.

Currently, there are *only 39* protégé's in the country approved for this program from the manufacturing sector and AMT has been selected to be a part of this elite group.

Participation in this program will enable AMT to get assistance from one of the world leading aircraft companies to achieve our goals of AS9100 certification, Lean, and to increase our competitiveness in the marketplace.

CNC VTL 80" DIAMETER

Introducing...
AMT'S 84th CNC
LARGE PART TURNING!
Recently added 80" CNC VTL
S & T Dynamics TVL-160
This increases our CNC turning capacity to 80.7" dia x 35.4" height.
